### Senior Committees Plan for Prom, Parents' Weekend

Flowers in the fourth dimension will provide a colorfully abstract background for dancers at the annual Senior prom.

Clarke's Senior prom, climax of the spring social season, is scheduled for May 9 and will be the first event of Parents' Weekend.

The queen will be chosen by popular vote of the entire school. Her identity will remain a secret until the night of the dance.

Rosemarie Schnepf and Mary Weller are co-chairmen of the decoration

Odra Carney, chairman of the bid committee, is designing the bids in keeping with the theme of the dance.

Bid sales are to be directed by Harriet Classen. Margaret Kretschmer is in charge of securing the orchestras for both the prom and Parents' Play night, May 10.

### 'We Like Ike!' Clarkites Say In Presidential Straw Vote

Clarke girls picked General Eisenhower, a Republican, as their favorite in the presidential straw vote taken at the SLC meeting yesterday. Ike won, however, with a plurality of only six votes. Another Republican, Robert Taft, received 47 of the votes to

place second in the elections.

Democratic candidates Paul Douglas and Estes Kefauver received almost an equal number of the votes cast for that party. The total for Douglas was 31. Kefauver received 29.

The remainder of the votes were scattered among five other candidates, Barkley, Harriman, Russell, Stassen and Warren. No votes were cast for Senator Kerr.

About 62 per cent of the votes cast were Republican. Demo-

crats received 38 per cent of the ballots.

Voting followed two radio campaign broadcasts sponsored over CLRK by NFCCS in the last two weeks.

### CCP Play Opens Tomorrow; Modern Antigone Takes Stage

A modern Antigone, dressed in a nylon formal instead of the traditional Grecian gown, and a Creon in full dress suit, will be the central characters in the Clarke College Player's production of the Greek classic which opens tomorrow afternoon with a matinee performance at 2:15.

The play will be repeated tomorrow and Sunday evenings at 8:15 in the auditorium of Terence Donaghoe hall.

Modern in its scheme, too, is the non-representational stage setting designed by the college art department. The set consists of a series of rectangular and cubical masses in black, grey and white with an accent of yellow.

Colored lights will reflect on a mobile backstage to cast unusual shapes and colors on the backdrop.

Purpose of the non-objective setting and color scheme, according to Mr. Robert A. Leader of the art department, is to relate the surroundings with the contemporary version of the

### And Don't Crawl!

You can tell a girl she's cross-eyed, that she lacks a sense of humor, that you don't like the way she wears her hair.

But you can't tell a modern collegian that she is immature!

Those are fighting words.

She has been convinced of her own maturity ever since Dad started giving her a weekly allowance, and she cannot be easily dissuaded from this judgment.

There are various interpretations of this thing called maturity. Most persons use the word very glibly—and often erroneously. They have only a vague idea of what they mean when they label a person as "immature."

In the popular sense of the word, a person is mature if he "acts his age." If you are a collegian, then, you are mature if you ACT like a collegian, not like a high school student or, and it may happen, like a grade school child.

But how should you, as a collegian, act?

First of all, we would expect a collegian to have an adult attitude toward study. If you put just enough into your classes to satisfy the instructor, to get a passing grade, then you are immature.

Do you wear (or do you wish you could wear) the same kind of clothes you wore in high school—comfortable jeans, sloppy sweaters, knee socks? A collegian should have good taste in dress.

What about your rooms, either here at school or at home? Would a visitor know from the appearance, decorations, general atmosphere that you are a college student—and not a high school freshman? And what do you talk about? Can you discuss current events intelligently? Or do you have to stick to the latest popular song or a new TV program?

Your leisure reading? Is it Max Schulman or George Bernanos? And for entertainment do you choose a second rate movie instead of

a first class concert?

Psychologists tell us that immaturity involves a delayed unfolding of inborn potentialities. As Clarkites we have a particular opportunity to develop these potentialities. We all want to know, "What can college do for us?" The answer: It can teach us correct moral values; it can give us the techniques of clear thinking; it can develop in us a sense of personal responsibility. It can make us mature!

Bobbie Lue didn't have to wait for a traditional Easter hunt to find her ring, since Bill McQuill, Loras '51, decided she might like to wear it in the Easter Parade. Come June 14, Marg will wed Pete Schmitz, former Loras student who is now a medical student at the University of Iowa.

is another symptom of the spring malady, according to Dorothy Cunningham and Ellen Kinsella who, found silently gazing at the campus in front of MFCH, announced that they "just felt lazy." A little later Barb Trapp left the library to go outside "and commune with nature." But with all of this going on, this writer still finds the scenery in the Courier office refreshing. In fact, spring fever hasn't affected us at all-we still feel gay, energetic, athletic and pep-ah-er-umm-zzzzzzzz!

She follows your wise counsel and everything is fine. But one day you find that you are no longer the omniscient sibyl in her life. The reason? She has seen a robin.

### Away With Robins

Robins can then be established as the cause for spring fever. The only way we can eradicate the cause is to chop down trees. Trees are reputed to be the robin's Utopia. However, if we cut down trees we eliminate the possibility of shade and that means sun. Sun means heat and heat means more robins.

To rid ourselves of spring fever, we begin by reading Alaska adventure stories. This isn't much of a cure, so we proceed to singing a chorus of "My Little White Igloo on the Iceberg" to the tune of "The Little Brown Church in the Vale."

If the powers of suggestion prove to be highly unpowerful, we proceed to old fashioned herb extracts and voodoo.
